Professional Summary

Computer Science undergraduate with hands-on experience in MERN stack development and strong foundations in object-oriented programming, data structures, and RESTful APIs. Proven ability to design and build responsive, user-centric web applications. Actively seeking a software development internship to gain industry experience and contribute to real-world projects.

Technical Skills

Programming Languages: Java, C++, JavaScript, Python, HTML, CSS
Frameworks & Technologies: React.js, Node.js, Express.js, MongoDB, MySQL
Core Concepts: OOP, Data Structures & Algorithms, REST APIs
Tools: Git, GitHub, Render

Projects

Spicy Store — E-Commerce Web Application — 2024

- Developed a responsive e-commerce web application using React.js and modern UI frameworks.
- Implemented reusable components and optimized client-side rendering for improved performance.
- Applied mobile-first design principles for cross-device compatibility.
- **Tech:** React.js, Tailwind CSS, daisyUI
- **Live Demo:** View Live Demo
- **GitHub Repository:** View Source Code

Dev Hunt — MERN Stack Job Portal — 2024

- Built a full-stack job portal enabling job posting and candidate applications.
- Implemented secure authentication and RESTful backend services.
- Designed real-time data rendering and dynamic job listing features.
- **Tech:** MongoDB, Express.js, React.js, Node.js
- **Live Demo:** View Live Demo
- **GitHub Repository:** View Source Code

Education

American International University-Bangladesh (AIUB) — 2023 – Present

BSc in Computer Science & Engineering — *Dhaka, Bangladesh*

- CGPA: 3.83 (8th Semester)
- Academic Merit-Based Scholarship (2024)
- Dean's Award (2025)

Leadership & Activities

Bangladesh Red Crescent Society (2015–2020): Participated in blood donation drives, disaster response programs, and community awareness initiatives.
